

O.F.F. achievements

Oatley Flora and Fauna Conservation Society is proud of its record of nearly 50 years of positive actions to keep our district clean and green. Our recent achievements include:

- Publication of educational materials including Oatley Park Plant List, Birds of Oatley and school study sheets
- Obtaining grants to regenerate local bushland at Oatley Park, Poulton Park, Moore Reserve, Neverfail Bay, Yarran Road, Myles Dunphy Reserve and other reserves
- Working on Hurstville City Council's Tree Preservation Committee
- Local area survey of fox sightings and follow-up with local councils
- Effective campaigns against inappropriate development in Oatley Park and other local reserves
- Education through our monthly newsletter, expert speakers at monthly meetings and informative leaflets
- Contributions to successful campaign to prevent dumping of rubbish in Jewfish Bay, Gungah Bay and the north arm of Lime Kiln Bay

Think globally – act locally – join O.F.F.!

Protecting the local environment since 1955

How can you ...

- Hear a great speaker every month
- Keep informed on conservation issues, local and national
- Help protect your environment
- Meet people in a stimulating and friendly atmosphere
- Learn about our environment, wildlife and native plants on family-friendly monthly walks

... and all for \$25 (family) a year?

**It's easy –
join your local conservation society:**

What O.F.F. does ...

Oatley Flora and Fauna Conservation Society works to keep our district clean and green by:

- Being an independent local watchdog over actions of local Councils, government agencies and developers
- Providing a way for members to express their environmental concerns to local, state and national governments
- Providing local Councils with environmentally-focussed comment on significant developments and management plans
- Protesting against tree removal and other environmental damage in our suburbs
- Obtaining funds for rehabilitation and weed removal in local bushland in both Hurstville and Kogarah Council areas
- Supporting environmental campaigns, such as conservation or urban bushland and protection of the Georges River catchment
- Producing a monthly newsletter to keep members informed about local environmental issues, as well as conservation issues in the wider community
- Making representations to Members of Parliament on important local environmental issues
- Investigating and reporting environmental problems such as pollution from sewer overflows and drainage
- Giving financial and moral support to other conservation bodies, such as the Georges River Environmental Alliance and the Total Environment Centre

*Oatley Flora and Fauna Conservation Society Incorporated
PO Box 52, Mortdale NSW 2223
January 2005 ABN 86 511 271 725*
